Desmond Business Park, Newcastle West, Co. Limerick V42 W972

www.toc.ie

ABOUT **TOC** HIRE

Our aim is to provide quality building materials in both bulk and retail quantities, delivered directly to your home or construction site, ensuring you can build with ease and confidence.

Tadhg O'Connor Ltd has a rich history dating back to 1978. Over the years, we have grown significantly and now operate from three locations in Newcastle West, Rathkeale, and Adare, Co. Limerick. With over 100 employees, we have become a trusted name in the construction industry.

We began as a small hardware store, serving the needs of the local community. By focusing on exceptional customer service and high-quality products, we quickly gained a loyal customer base.

The opening of our new Plant & Tool hire business in Newcastle West in 2024 marks another significant milestone in our journey. By offering a convenient and reliable solution for hiring equipment, we aim to support both DIY enthusiasts and professional builders in their projects.

Our extensive range of well-maintained tools and machinery is available at competitive rates, ensuring that our customers can complete their projects with confidence.

PAYMENT TERMS & HIRE PERIOD

ACCOUNT CUSTOMERS

If you already have an account with us at any of our branches, you can seamlessly use this same account for your hire transactions as well. This means you can enjoy the convenience of a single account for all your purchasing and hiring needs.

NON ACCOUNT CUSTOMERS

For all non-account customers, we require a deposit equivalent to three times the weekly hire rate, along with proof of identity. This measure ensures the security of our equipment and facilitates a smooth transaction process. We accept both cash and card payments.

HIRE PERIODS

- 1 DAY** The charge for the first 24 hours of any hire
- 2 DAY** The maximum charge for 48 hours of any period
- 1 WEEK**..... The maximum charge for any period up to 7 days
- WEEKEND**..... A special discounted rate for hire between 3pm on Saturday to 9am on Monday.
* (This is equivalent to one day hire)

- Compactors & Road Saws
- Cement Mixers
- Concrete Finishers

PUMPING, PLUMBING & CLEANING

- Water Pumpers
- Petrol Pressure Washers
- Drainage Equipment

POWER LIGHTING & HEATING

- Generators
- Site Lighting
- Site Drying & Heating

GRINDING, SANDING, FIXING & CUTTING

- Grinders
- Nail Guns
- Sanders

ACCESS EQUIPMENT

SINGLE WIDTH ACCESS TOWER

The single width access tower is designed for small and awkward spaces, it includes:

- Integral Ladders
- Light Weight
- Increased Rigidity
- Height ranges from 2.2m - 10.2m
- Easy Mobility

(Hire period - Minimum one week - POA)

DOUBLE WIDTH ACCESS TOWER

The UTC500 scaffold tower offers top-quality safety and ease of use. It is lightweight yet strong and impact-resistant, with a 500mm rung spacing. Suitable for both indoor and outdoor use, it supports 3T and AGR assembly methods.

- 3T and advanced guardrail options
- Single and double width options
- Easy to use & assemble
- Working height ranges from 2.2m - 14m

(Hire period - Minimum one week - POA)

TOWER SAFETY TIPS

When working in towers, always follow these safety tips:

SYSTEM SCAFFOLD TOWERS

- System scaffold towers must be constructed to the same standard as any other scaffolding.
- Inspect the tower before use.
- If you are erecting a system scaffold tower, you must be trained to do so.
- Working platforms must be fully boarded out. Where the risk assessment requires it, they must be provided with guard rails and toe boards.
- Towers must be braced.

MOBILE TOWERS

- Mobile towers must not be used unless wheels and brakes are provided.
- The brakes must be applied before the tower is used, and the wheels must be firmly fixed to the tower. Mobile towers should be erected so that the height of the platform above the ground is no more than three times the smaller base dimension. If the tower is used indoors, the platform may be up to 3.5 times the smaller base dimension above the ground.
- The access tower must be suitable; for example, ladders must be securely fixed.
- The tower must not be moved while persons or materials are still on it.
- Towers should be carefully erected and dismantled in an orderly and methodical manner to prevent damage to the component parts and in accordance with the manufacturer's guide. This guide will be provided to you by TOC Plant & Tool Hire.
- If a tower appears to be unsafe, do not use it and report it to a supervisor.

TRESTLES AND BOARDS

Steel trestles and scaffolding boards are perfect for plastering and bricklaying.

- 8ft Scaffold Boards
- Range of steel trestle heights
- From 0.5 - 1.6m

(Steel reshaping charges may apply)

SECURITY & PROTECTION

We offer a variety of security and protection solutions.

- Security Fencing
- Road Barriers
- Road Signage
- Chapter 8 Barriers

STEEL PROPS

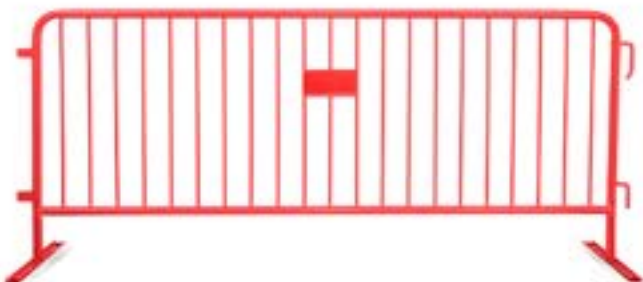

- Size 0 - 1.04-1.8m
- Size 1 - 1.75-3.12m
- Size 2 - 1.98-3.35m
- Size 3 - 2.59-3.96m
- Size 4 - 3.2-4.87m

STRONG BOY

It attaches to the top of any steel prop to provide support for brickwork and other construction support structures.

TEMPORARY FENCING, BARRIERS AND HOARDING PRODUCTS

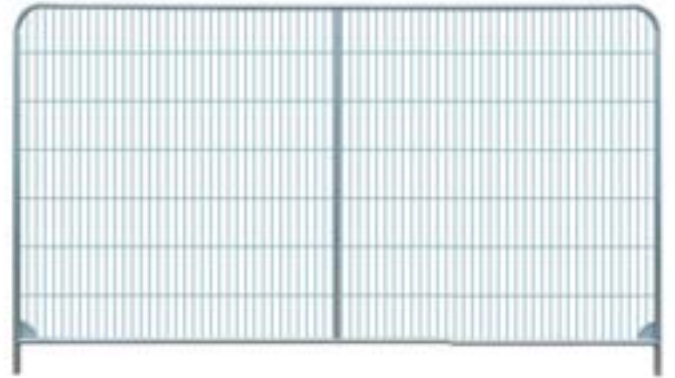

METAL BARRIERS

PLASTIC BARRIERS

TEMPORARY FENCING

SLOT BLOCK

RUBBER BLOCK STILLAGE

CONCRETE & COMPACTION

COMPACTORS

We offer a selection of compactors and rammers suitable for road repair, trench work, block paving, and maintenance tasks.

- Compactor plate (L/D)
- Compactor plate (H/D)
- Pedestrian roller

MIXERS

We offer a choice of diesel, petrol, or electric motors to suit your specific needs and preferences, ensuring that you have the flexibility to select the most suitable power source for your application.

Compact and portable, making it easy to transport to various job sites. It efficiently mixes a full barrow load of concrete or mortar, thanks to its extra-thick drum and quick-mix paddles, which ensure a thorough and uniform blend.

We offer:

- Tip-up mixer (240V)
- Tip-up mixer (petrol)
- Tip-up mixer (diesel)

CONCRETE FINISHING

We provide a range of equipment designed to achieve the smoothest finishes, from pokers and trowels to power floats.

- Levels concrete slabs and floats to ensure an even surface
- Removes trapped air and water for optimal concrete quality
- Creates a smooth, professional finish
- Provides long-lasting results for durability

WE OFFER:

- Power float (24")
- Power float (35")
- Bull float
- Electric poker
- Petrol poker

ROAD SAW

Featuring a high-capacity saw and a heavy-duty steel chassis, these rugged machines are designed to meet the demands of tough materials and challenging applications.

- Suitable for all floor and road applications, including both concrete and asphalt
- Provides accurate control and good stability
- Equipped with a 350mm to 450mm blade

PUMPING, PLUMBING & CLEANING

PUMPING

We have your pumping needs covered with a selection of petrol and electric pumps, ideal for both construction and farm applications.

- Lightweight and portable
- Single-phase submersible pumps
- Capable of handling both water and solids

SUBMERSIBLE
PUMPS

50MM CENTRIFUGAL
PETROL PUMPS

PRESSURE WASHERS

We supply a range of electric and petrol pressure washers, designed with industry needs in mind.

- Heavy-duty wheels for easy mobility
- Hose and cable racks
- Heavy-duty electric motor

PRESSURE WASHER
ELECTRIC

PRESSURE WASHER
PETROL 2200PSI

ACCESSORIES

We supply a range of essential accessories for builders, plumbers, chimney sweeps, and handymen, including items such as copper pipe benders and drain rod sets.

POWER, LIGHTING & HEATING

POWER

From generators to transformers, we have all your power requirements covered. Whether you're on-site or at home, we offer the perfect power solution for you.

- Range of power sizes
- Standard and high-voltage options
- Petrol and electric models
- Portable devices

We offer:

- Generator (3.5 kVA)
- Generator (5 kVA)
- Welder/Generator
- Transformer (3.3 kVA)
- Transformer (5 kVA)
- 4-way junction box
- Extension lead (110V)
- Extension lead (240V)
- Spider pods

We offer:

- Copper pipe benders
- Drain rod sets
- Drain worm
- Pipe freezing kits
- Universal stopcock keys

POWER

We supply a wide range of portable lighting solutions, from floodlights to plasterer's lights. Our lighting options ensure you can work safely and effectively at any time of day or night.

- Portable devices
- Bright and efficient
- Light and adjustable
- Available in a variety of sizes

We offer:

- Single floodlight
- Double floodlight
- Plasterer's light (2 ft)
- Plasterers Light (4 ft)
- Festoon Lights
- Portable Site Lamps

DRYING AND HEATING

Dehumidifiers reduce humidity caused by leaks, floods, and overflowing sinks. They also help protect indoor air quality and safeguard sensitive materials and equipment in areas such as health clubs, gyms, and computer rooms from the potentially damaging effects of excessive humidity. Additionally, our heaters provide a fast and effective source of heat, making them ideal for workplace environments.

- Available in various sizes
- Portable devices
- Ideal for home or site use

GRINDING, SANDING, FIXING & CUTTING

GRINDING

We supply a range of grinders with both small and large discs available.

- Powerful motors and lightweight design for continuous use
- Flat gear head for convenient operation in tight spaces

We offer:

- Mini Grinder 115mm
- Grinder 225mm

FIXINGS

Perfect for timber framing, floor boarding, decking, stud work, fencing, and concrete applications.

- Nose probe with added teeth ensures positive placement of the nail
- Fast and easy to assemble

We offer:

- Cartridge gun
- 1st fix Paslode nail gun
- 2nd fix Paslode nail gun
- Porta nailer

SANDING

From parquet to laminates, we have the perfect sander for your needs. We offer a range of sanders, including:

- Versatile
- Reliable
- Capable of sanding any type of wooden floor to a perfect finish
- Wide range of sanding sheets available (sold separately)

We offer:

- Floor sanders
- Floor edge sanders
- Orbital sanders
- Belt sanders
- Palm sanders

We supply a variety of petrol and electric tools designed for fast and complex on-site cutting tasks. Our range of portable cutting saws includes:

- 12"/14" petrol cut-off saw
- Sabre saw
- Power planer
- Jigsaws
- Circular saw (185 mm)
- Circular saw (230 mm)
- Twin blade wall chaser
- Floor saw
- Reciprocating saw

POWEURED ACCESS

We have the perfect boom lift, scissor lift, personnel lift, or telescopic handler for any job, ensuring you have the right equipment to meet your specific needs.

- Boom Lifts
- Scissor Lifts
- Telehandlers
- Vertical Mast Lifts
- Diesel Scissor Lifts

TOOLS FOR SALE

In addition to offering a wide range of plant machinery and tools for hire, we also provide an extensive selection of power tools available for purchase. Whether you're looking for the latest models or reliable classics, our inventory caters to various needs and preferences.

TERMS OF HIRE

It is the customer's responsibility to obtain an off-hire note at the end of the hire period. This document confirms that the equipment has been returned in a clean and undamaged condition. Please note that customers will be charged for any damage to the equipment and are also responsible for the replacement cost of any items that are lost or stolen during the hire period. We strongly advise customers to insure all hired equipment against potential damage, loss, or theft. For a comprehensive overview of our terms and conditions, please visit our website.
